## TAMMANY.

Rumors About the Movements of Tweed, Sweeney, Connolly and Hal---The Last of the Ring.

New York, September 25,—The latest rumor in regard to the opera-tions of the ring, composed of Tweed, Hall, Sweeney and Connolly, who are so prominently connected with the Broadway widening swindle, is that when the late Auditor Watson, who had cognizance of the fraudulent transactions, was taken with his last Illness, messures were devised to pre vent him from divulging what he knew about the matter. Every ar-rangement had been made to have Watson surrounded in such a way as to pr vent any confession on his part. Subsequently the widening scheme was changed by a legislative bill.

Mrs. Watson is said to have been handsomely pensioned by the ring afterward on condition that she should reveal nothing concerning their action. Another rumor to the effect that Garvey, or his confederates' ring, have gone to Europe Is untrue.

## A DESPERATE FIGHT.

The Escaped Nevada Convicts Esgage a Sheriff's Posse-Several of the Officers Killed and Wounded.

San Francisco, September 26.—On Sunday morning Sheriff Hightower and party, of Monroe county, California, engaged five of the escaped pris-oners from Carson, Nevada, in Hong fire with deadiy effect. R. J. Morrison, the agent of Wells, Fargo & collision in New York yesterday, Several passengers were also severely bruised.

Two horses were killed by a street car to do their utmost duty in arresting five dollars, while that of gold every person who is proven to have iff's party, and one Indian were killed outright, and another was shot through the hand. The sheriff's party lost seven horses, four killed and ty lost seven horses, four killed and three captured by the convicts. Only three convicts were seen to leave the battle ground; it is thought that the battle ground; it is thought that the others were killed and that their bad. others were killed and that their bodies could not be found. The sheriff the convicts, was not seen. The Governor has offered from two to three hundred dollars reward each for the capture of the convicts.

THE LAW OF STORMS. Curious and Instructive Meteorological Facts Developed by the Government

Weather Observations. From the Scientific American.]

In the fourth meteorological report by Prof. J. P. Epsy, of Washington, D. C., we find the following instructive generalizations: The rain and show storms, and even the moderate rains and snows, travel from the west toward the east in the United States, during the manths of November, December,

months of November, December January, February and March, while

3. This central line of minimum pressure is generally of great length from north to south, and moves side foremost toward the east.

5. This line is sometimes nearly streight, but generally curved, and most because the most because of a fine yield.

A boiler in Hardeman's mill, twenty miles north of Montgomery, Alabama, exploded yesterday. Of eight employees five were killed or fatally injured. On person was harled 105 yards up a hill and was terribly mangled. The mill is a solution of the most because of the most beca

5. The velocity of this line is such that I travels from the Mississippi to politics, being speaker of the assembly the Connecticut river in twenty-four twenty years, and otherwise filling imthat I travels from the Mississippi to St. John, Newfoundland, in nearly the same, or about thirty-ix miles an

Dr. Fewler's Compound Extract

Scrofula, Syphilis, Liver Complaint, Constipation, Chronic Rheumatist ses of the Eldneys and Bladder, and all Blood Impurities. we offer to the American public a new

and valuable remedy for the above-mentioned diseases. Fowler's Compound Ex tract is composed of the best medipure in all its ingredients, being compe of several well-known articles universe used by the best physicians; each of whi in combination-supplies what experien ployed; but the result of patient investigaion, requiring time, labor and skill, so as to give the public a genuine article, which they importacan rely upon, and in place of the worthless and dangerous Patent Medicines flooding the country; and therefore enables us to warrant

Fowler's Compound Extract to be the most

SCROFULA. This Compound is a never-falling cure for have their seat in the blood-diseases whi have been treated valuey for years. If the blood alone is purified, in most cases health and happiness will soon return. Dr. Fow-ler's Compound acts especially upon the virus in the blood, causing in time the dis-appearance of the hider us sores, and emtor-ing the skin to a healthful appearance, the eye clear and sparkling, and the whole hu-man organization becomes healthy.

SYPHILIS.

Of all diseases which fiesh is heir to, none bring so much misery, moral and physical, as Syphilis. To all so afflicted we can truly say this reme dy will heir you. Two articles found, by experience, to be peculiarly efficacious for this disease, are contained in this compound. We ask you to try Dr. Fowier's Compound Extract, and, by giving it a fair trial, it will cure you.

We speak with much confidence of Dr. Fowler's Compound, because we know what it is composed oi, and what it will do. We know Dr. Fowler well, who is a physician of known repute, standing second to none in the country, of long experience, an holograble man, who, having a reputation for character, as well as ourselves, would never allow a medicine to ge before the public without merit. And we say of this Compound, if taken according to directions, after a fair trial, it will do all we claim for it.

We ofter it as a new discovery, which it certainly is—a genuine article for Scrofnia, Syphilis and all blood impurities; and knowing the genuineness of it, as such we sand it forth, saying," Go, Heat the Suffering!"
